By Vito Consona

REPART of Philippine broadcast history by moving to be an AM radio frequency that reflects today's day: 990.

Daily Radyo Inquirer 990 AM—the broadcast arm of the business group of companies—marks its official launch today, leaving across the airwaves as the newest member of a leading multimedia organization that Filipinos have trusted for a quarter-century and counting.

The reach and reachability of radio and the credibility of the newspaper—I believe it will be a winning combination. **INQUIRER 411**

Ampatuans planned murders over dinner

'Kill them all' order was given by clan patriarch, says witness

LASHAMIR Salas (left) directly links Abdul Ampatuan Jr. (center) to the Maguindanao massacre allegedly on orders of his father Abdul Ampatuan Sr. (right) during Wednesday's opening of the trial at Camp Bagong Diwa, Marikina.

By Philip C. Solis

OVER DINNER amid laughter, the Ampatuan clan planned the massacre of a political rival and his supporters, and the family patriarch gave the final order to "kill them all" when the victims showed up six days later in an ambush that left 57 people dead, a house help testified yesterday.

At the opening of the trial almost 30 months after the worst political violence in the nation's history took place in Maguindanao, Lashamir Salas directly linked Abdul Ampatuan Jr. to the killings allegedly on orders of his father, former Gov. Abdul Ampatuan Sr.

Salas, 32, said that Ampatuan Jr., the mayor of Davao City, and a force of over a hundred heavily armed and paramilitary troops that carried out the massacre on Nov. 23, 2009. The dead included 30 journalists, the largest single group of people killed in a single incident.

Salas said that the patriarch had called his sons, including his junior and former Gov. Zaldy Ampatuan of the Northern Mindanao region in Marikina, relatives and supporters to a meeting to discuss his rival, Tito Magsalada, from filing his candidacy for governor in the Marikina.

"That is easy, Father. Kill them. **AMPHAT 411**

Arroyo office donated P1.75B

By Lella B. Salas

GLORIA Macapagal-Arroyo seemed to be in a generous mood in 2009, a year before she stepped down from the presidency.

A report from the Commission on Audit (COA) showed that donations made by the Office of the President (OP) to government agencies and private groups nearly tripled last year, or from P263.54 million in 2008 to P1.743 billion in 2009 for a 177-percent increase.

Among the private groups **AMPHAT 411**

Ratings war may have doomed negotiations

By Marlon Razon

A RAGING ratings war among broadcast networks may have doomed negotiations and turned an 11-hour-long hostage drama into a bloodbath, a radio-TV reporter who was on the scene to the gunmen during the critical hours told a fact-finding panel yesterday.

Ennes Telle told the commission headed by Justice Secretary Leila de Lima yesterday how the blow-by-blow coverage of the standoff was driven by the media industry to "lose money" each week.

The problem is, we are all chasing ratings, exclusively. My colleagues may not admit it, but **AMPHAT 411**

WRAPPING UP 'Intriguing' gunshots trigger more questions

By Terra Quinsamondo

WHERE did some "intriguing" gunshots come from? Did the two-gun-shot, distressed Senior Insp. Rodolfo Mendoza, who lost 34.35 as a reward in his bloody campaign? Did anyone else really kill Mendoza?

On what was supposed to be the last day of his fact-finding investigation, the commission headed by Justice Secretary Leila de Lima yesterday focused on more questions surrounding the Aug. 23 incident in which eight along with tourists and Mendoza ended up dead.

The commission conducted a two-hour inspection of the scene but that Mendoza had missed. It was kept under tight security and 24-hour video monitoring at the logistics warehouse at Camp Bagong Diwa in Marikina.

The visit provided a visual **INTRIGUING 411**

GOV'T FAT CATS 'Major, major scandal' unearthed at Meco

By Christine V. Espenra and Neman Sorodors

The Manila Economic and Cultural Office (Meco), the de facto "Philippine Embassy" in Taiwan, appears to have the most generous retirement package among government agencies.

For serving for just two years at Meco, a member of its board can leave the job and be entitled to P608,800 for every year of service, the Senate Finance Committee hearing on government-owned and -controlled corporations (GOCCs) found yesterday.

This developed as President Aquino ordered the suspension until Dec. 31 of all allowances, bonuses and incentives of board members of GOCCs and government financial institutions (GFIs).

In issuing Executive Order No. 7 yesterday, Mr. Aquino also

stopped bonuses in the salaries and other benefits of board members, executives and regular employees exempted from the Salary Standardization Law.

"The grant of allowances, bonuses, incentives and other **INQUIRER 411**

Climate chief leaves huge carbon footprint

By G.C. Cabacungan Jr.

THE COUNTRY'S main negotiator for climate change compensation has left a huge carbon footprint because of his frequent trips overseas, the Senate said today.

The Senate committee on cli-

mate change yesterday urged former Sen. Melvin Alcantara, who stepped by leaving, "to limit his trips and leave the talks to our negotiators abroad" so he can be more present with the fisherfolk, farmers and other sectors affected by global warming.

Sen. Loren Legarda, chair of the committee, said Alcantara could give the Senate an update on the negotiations for compensation, specifically the United Nations Adaptation Fund, and coordinate the climate change **CLIMATE 411**

GA
GLOBE ASIATIQUE
REALTY HOLDINGS CORPORATION

In wake of recent adverse publications and news about our company, we would like the public to know:

GLOBE ASIATIQUE HAS A GOOD TRACK RECORD. Globe Asia (GA) has been in the real-estate business for 16 years and has garnered several awards. In 2003, GA was recognized as "Leading Developer" by the HLURB. In May 2007, GA was bestowed "Most Pioneering and Responsive Developer of the Year" award by the HLURB.

GA HAS AN UNBLEMISHED RECORD WITH PAG-IBIG. In the latest performance rating report dated August 2, 2010 from Pag-IBIG signed by Erlinda Francisco, manager of HDMF San Fernando Branch, Ady Vilma Flores, vice president of the Northern Luzon Group of HDMF, and Sergio Andal, Jr., deputy chief executive officer of HDMF Regional Clusters, GA garnered 99.98%, near-perfect rating.

GA HAS ALWAYS MAINTAINED A GOOD PARTNERSHIP WITH PAG-IBIG. GA, through its internal monitoring group, was the one who discovered and reported the dubious buyers to the Pag-IBIG office. The reported 351 dubious accounts is a mere 4% of the 9,005 current accounts with the Pag-IBIG Fund.

GA DOES NOT APPROVE PAG-IBIG APPLICATIONS. It is not GA that approves Pag-IBIG memberships. Instead, it merely processes loan applications upon presentation of certification of contributions from Pag-IBIG.

Xevera Mababacat has 6,435 houses built and completed, while Xevera Bacolor has 4,046 houses built and completed, all as scheduled. It is up to the approved borrowers when they choose to occupy the unit.

PAG-IBIG PROVIDES END-USER FINANCING NOT LOANS TO GA. GA did not acquire loans from Pag-IBIG. Pag-IBIG members are the ones who owe the institution when they purchase units in Xevera homes.

GA IS THE ONLY DEVELOPER THAT HAS A FIVE-YEAR BUY-BACK GUARANTEE. GA has further protected the interest of Pag-IBIG and its members by being the only developer that has a five-year buy-back guarantee. This was commended and praised by Pag-IBIG officials. In any event that there is payment default or bad account, GA absorbs the loss through the buy-back guarantee to ensure there is no loss incurred by the Pag-IBIG Fund.

GA PERSISTENTLY ENDORSED THE OWG CATEGORY. OWG (Other Workers Group) are individuals not formally employed (like self-employed or the overseas foreign workers). GA endorsed to Pag-IBIG this group so they are qualified to secure a housing loan. This new category is law. It is not exclusive to GA but is open to all other developers. This is a way of solving the housing backlog, as their meager contribution to nation building.

GA DOES NOT BUILD HOMES, IT BUILDS COMMUNITIES. Same as the vision of Vice President Jejomar Binay, GA focuses on building sustainable communities. It also plays a pivotal role in youth development by giving free elementary-to-high school education, which includes free books and tuition. GA donates the school structure and partnered with the Department of Education. GA currently has over 3,000 scholars and subsidizes the operating cost of the schools, even the salary of teachers.

GA nurtures the spirit as well by building air-conditioned churches and eco and theme parks. GA also built and donated the municipal halls, clubhouses, eco parks, and plazas to espouse a sense of community and fellowship. GA also builds commercial areas and wet-and-dry markets that encourage entrepreneurship among its residents.

GA HAS RECEIVED GREAT DEMAND FOR XEVERAS. GA focused on the Xevera projects because of the demand of local governments who openly professed interest that their residents be given the same level of quality houses and community-building facilities GA espouses.

GA IS MORE THAN JUST XEVERA. GA has a wide range of products and high-rise condominiums that are strategically located along MRT stations in Metro Manila, and midrise and township developments outside Manila. These include the GA Twin Towers, GA Sky Suites, St. Monique Valais, St. Monique Novena, Casa Ibiza, Chateau Valenzuela, and The Enclave.

GA PRIDES ITSELF TO BE A REAL-ESTATE DEVELOPER WITH A HEART. GA's vision is to improve and elevate the lives of buyers with all the services incorporated into our developments. We aim to provide to the lower-income earning bracket the benefits that the affluent enjoy.

GA welcomes any investigation and offers to cooperate fully, even suggesting that the probe be held in the Xevera sites so the claims of its detractors can be evaluated and verified first-hand. It is confident the results of the inquiry will vindicate its name and reputation.

Missing factor in RP development

W 215 column "Firing our home rockets, 5/13/95, comments: Carlos Valdes asked: "After have we been firing wrong all this time that Philippine agriculture has largely failed to utilize the love of man? (Man is in the countryside)? Plus, should the government of President Joseph Arroyo fix its difficulty, to go on one of this morning trip?"

Takes Malaysia which has increased, with a nominal GDP per capita of US\$ 4,000, as

agriculture sector contributed only 19.1 percent to GDP-GDP while industry contributed 42.3 percent and services, 46.4 percent. On the other hand, in the Philippines, which has a GDP per capita of just \$1,746, industry contributed only 28 percent to GDP, agriculture, 14.9 percent, and services, 55.2 percent.

In the United States, approximately 10 agricultural workers with a per capita income of \$22,284 in 2005, the same as the non-AGP wage. Argentina 8.7 percent, manufacturing 30.7 percent and services 60.6 percent. In the United States, the biggest economy in the world, the contribution to GDP is a mere 1.2 percent from agriculture, 22.8 percent from industry and 76.0 percent from services. For it has the biggest output in agricultural production. China's standing remains steady in this as the world's

It is easy to see why industrialization is essential to progress in developing countries. To be successful agriculture must be modernized, use seed, fertilizer, pesticides, sprays, irrigation facilities, processing and packaging industries.

One foreign advantage has been selling in to be competitive, but before the mid-1980s most of our agricultural and industrial products cannot compete. Our foreign trade deficit has been growing for the past several decades, due to the

with a burgeoning population now exceeding 80 million, we cannot ignore mass misery for our people in the coming decades, unless we change course. The only road leading to President Aquino's simple message and that of the Nation's churches was "industrialization" (his word) provide sustained jobs and increase production and incomes.

—ROBERTO DEL ROSARIO
Spokane, Washington

Business for Trade in Mexico
I have read the article by Robert

Admirable, inspiring simplicity

I found inspiring the article titled "Tame language, tame philosophy," from *Monist*. Elizabeth says it simply, "in the *Ulysses* tradition and beyond" (p. 10). *Monist*, Vol. 90, No. 202 (4). *Monist* (like Mr. Elizabeth) says all the trouble to philosophy would vanish without philosophy as a way of life. Elizabeth has being a person better than.

I am convinced that if St. Theresa's College's focus is in selling simplicity as to all-glass students, where Mr. Hinder has been attending, The Old women who embrace their 100 years in the Philippines for October, must have been very effective in our building work must have been paid. Of course, credit libraries go to the Philip family for having brought up someone like Mr. Hinder.

I did express my admiration for her in "Cherish" (appears for Mother's Day, 1/26/2009), about my kids and I had the privilege to watch her on stage at Blue City. What a joy seeing her in an outstanding show. Her every movement was perfect like it was an indelible part of her. She makes her craft her life. It was a home where I personally got a letter signed by her dedicated as my workday. Someone like her is
